EDUCATION

B. Tech (Computer Science and Engineering)

Swami Vivekananda University

01/2023 – 01/2027 | Barrackpore

GPA: 8.91/10.0

Higher Secondary (12th Standard – Science) in science

Changrachak Jagadish Smriti Vidhapith

05/2021 – 02/2023 | Purba medinipur

GPA: 74/100 Percentage: 74%

SKILLS

Technical

HTML,CSS,Express.js,Node.js, React.js, JavaScript,bootstrap, Tailwind CSS, TypeScript, MongoDB, Next.js, python

Tools

Git, GitHub, Postman, VS Code,Vercel

Soft Skills

Adaptability, Problem-Solving, Team Collaboration, Time Management

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER

Dedicated **Full Stack Developer** specializing in **Next.js, TypeScript, and the MERN stack**. Architected **Ucoder Insights**, a privacy-first web analytics SaaS and **open-source NPM package**, focusing on high-performance data tracking and cookie-free architectures. Strong foundation in **Data Structures and Algorithms** from **IIT Kharagpur (NPTEL)**, with a proven ability to build secure REST APIs and scalable, user-centric web applications

PROJECTS

Ucoder Insight (Web Analytics Platform) [↗](#)

10/2025 – Present

[Live Link](#) [↗](#) | [GitHub](#) [↗](#) | [NPM Package](#) [↗](#)

- Developed a full-stack, cookie-free analytics dashboard with secure REST APIs and a role-based access system.
- Published an **open-source NPM package** to automate tracking for page views, custom events, scrolling, , location , JavaScript errors.
- Engineered seamless tracking for SPA route changes and outbound links, significantly optimizing data insights for modern web apps.

Mini Bank Web Application [↗](#)

05/2024 – 08/2024

[Github](#) [↗](#)

- Developed an interactive banking application simulating core financial operations like deposits, withdrawals, and real-time transaction tracking.
- Designed a clean, responsive user interface to ensure a seamless and secure-feeling user experience across all devices.

CERTIFICATIONS

React js

- Organization:** ARDENT COMPUTECH PVT LTD
- Summary:** Gained expertise in component-based architecture, hooks, state management, and building scalable front-end applications.

Design and Analysis of Algorithms (DAA)

- Organization:** NPTEL (IIT Kharagpur)
- Summary:** Successfully completed an intensive course on algorithmic efficiency, sorting, searching, and dynamic programming.

Python Programming Certificate

- Organization:** Academy of Skill Development
- Summary:** Mastered Python core concepts and its application machine learning integration.
